

Welcome week February Intake 2022

February intake welcomed a diverse set of students hailing from Morocco, Cameroon, England, Egypt, Nigeria, India, Pakistan and many more. The "Welcome Week" began with academic introduction

by Professor Jordan Mautner and Dr. Aida, extracurricular activities by Jordan and Sam. Prof. Josep talking about paid internships, Prof. Eduardo about career services, Prof. Yvette about Business English were the highlights of it.

Learn the official language of 21 countries

Technology has transformed the world into a global community where it is quick and easy to relocate from one geographic region to another.

One of the perks of being an international student and studying abroad is broadening your horizons to learn new culture, traditions, perspectives, and possibly a new language.

One of the most life-changing decisions of your life: choose wisely

How do we convince prospective students that ours is the perfect business school for them? Choosing a school is, after all, the most important step in establishing an international career. Job specific specialisations, and industry-oriented, practical exposure based learning programs have become popular in the new competitive landscape.

But seeing the same information on institution websites and other platforms might be daunting at times. Thus, students should focus on the most crucial variables while selecting a Business school.

Each school has its own eccentricity and perks. Although it may be tempting to focus just on the institution's reputation, there are numerous additional things why try to make our students consider to guarantee them they are receiving an education that is tailored to their long-term goals and career objectives.

1. Location

We say students should strike a balance between exploring a new city and everything it has to offer while their studying, but they should also consider being close to the industries/sectors they want to work in once they finish.

C3S Business School provides tremendous networking opportunities and facilitates field trips and company visits in varied industries. We tell students wanting to work in the start-up tech sector, Barcelona is the place for them!

2. Immersive and Experiential learning

The absence of soft and practical skills students learn while at school is the most common industry complaint regarding business schools.

Therefore, choosing a business school that will provide more than a typical theoretically-oriented curriculum will help graduates be competitive and career-ready.

“Paid internship projects with companies also foster real-world experience”

“Being taught by someone who has accomplished it before is one of the most effective methods to learn”

Welcome C3Sians

We have seen how social distancing measures have been progressively released in the wonderful city of Barcelona. Every day we are putting our efforts as a community to recover the undeniable vibe of the city and welcoming every semester our new C3Sians coming from around the world to have amazing experiences, academic challenges, networking and enjoying a friendly and healthy environment in our Campus.

This new intake in 2022 reflects the beginning of a new chapter despite the pandemic situation we all have gone through. It is with pleasure and joy when I say that not even the health issues have stopped us from growing as an Institutional Education and Individuals and we keep looking towards transforming and improving our project based learning system to help you achieve success in the field you are interested in.

I hope you enjoy this professional and personal journey, discover yourselves and reach the best of you.

Best wishes,
Maria Fernanda Dugarte
Dean - C3S Business School

Barcelona Tour with C3Sians

The tour turned into a super fun adventure in one of the most iconic cities in the world and our students' new home!

Students and the staff team met at **Sagrada Familia**. They visited the infamous church still in construction and discovered the surrounding garden.

From there they reached **Passeig de Gracia**, one of the main high streets of Barcelona, famous for its commercial highlights and stunning architecture.

Then on to **Plaça Catalunya**, an iconic historical monument. The plaza marks the beginning of the renowned Ramblas, famous for its flourishing food and gift stands.

From there they made a stop in el Gótico, the old part of Barcelona, filled with small charming streets and medieval buildings, for lunch at one of the **famous restaurants - Casa Muyo**,

The second half unfolded at **Barceloneta**, Barcelona's beautiful beach district where a fun surprise awaited - the boat tour.

When in Barcelona, football is your calling!

An internal football match was held between C3Sians on 10th Feb, 2022. It became one-sided after some time as the match ended with a score of 4-0. Our goal keepers - Serge Ejolle Sone & Jarier Mohammed Hossain performed amazingly well. A few star players to mention were Franklin, Jarier, Yuhann, Puvly, and Lawrenzo coached by none other than Tomas Aristimuno.

Immigration requirements after you land in Barcelona

When the student will reach Spain, they must carry along the below documents without fail as the immigration officer might ask at the airport after landing.

- Insurance copy - That should cover the duration of their stay
- Admission letter - Given from the school
- Accommodation proof
- Covid vaccination certificate

Note: The passenger must be vaccinated at least 14 days at most 270 days before the arrival or they must be fully vaccinated and receive a booster dose.

- The list of accepted vaccines consists of AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covaxin, Covishield, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm, and Sinovac. Other vaccines are accepted if the last dose received is one of the previously listed vaccines.
- The SPTH form (<https://spth.gob.es/>) is to be filled out before arrival, which will provide a QR code which the immigration officer will scan.

C3S Business School caught my attention when I was considering studying abroad in Spain. Because of covid, I had to drop my plans to study in 2020 then I began my journey for Spain again in 2021. I am heading to C3S Business School for Level 4 Professional Diploma in Tourism and Hospitality Management. It was a smooth process beginning with my consultant (Elite Career Consultancy) and then with C3S Business School staff - Ms. Megha, who played an important role in my visa process. I highly recommend C3S Business School as it is best in Spain.

From the research I carried out on the internet I noticed that amongst the various universities in Europe and Spain in particular I have come to realize that C3S Business School in Barcelona meets my desires aspirations. First of all the tuition fee is affordable and also because of flexibility teaching methods and a well trained faculty staff. To summarize it all C3S Business School is a place to be and I believe is a place where all my dreams will come to reality.

I really like C3S for many reasons. First reason, it is a prestigious, modern school and well known in Spain. The second reason, the administration is open minded and think outside the box to make C3S a successful educational experience for the students. Third reason, their Visa support team is really helpful. I feel comfortable to choose this school.
