Overview Objectives

The Global MBA is designed to develop strategic leaders capable of operating in complex international business environments. The programme equips students with advanced knowledge across core management disciplines including leadership, strategy, people management, finance, innovation, and business transformation. Learning is applied through real-world business challenges, enabling students to critically evaluate organisational issues and deliver evidence-based solutions. The programme culminates in a capstone management investigation aligned to professional practice.

Graduates will be able to:

Critically integrate management and leadership theories within global business environments

Apply appropriate strategic and analytical tools to complex organisational problems

Evaluate business risks, innovation opportunities, and transformation strategies

Communicate professionally and persuasively to diverse stakeholders

Demonstrate ethical, responsible, and reflective management practice

Why This Programme Stands Out

Develop strategic leadership and decision-making capabilities in global contexts

Enhance professional competence in management and business transformation

Strengthen analytical, financial, and innovation-led thinking

Prepare graduates for senior leadership roles or further doctoral study

Teaching Methodology

Our teaching experience combines engaging classroom lectures with consistent seminars and workshops, enriched by research opportunities and field trips. Students benefit from hands-on experiential learning, in-depth collaborative debates and discussions and real-world exposure through live consulting projects and dedicated consulting labs. The programme also supports startup incubation opportunities, all within a career-focused, industry-driven education framework.
