A university-specific degree (título propio*) from Universitat de Vic - Universitat Central de Catalunya (Uvic-UCC), Spain

Overview Objectives

The Master in Project Management programme develops advanced project professionals capable of planning, delivering and leading complex projects across sectors. It integrates strategic management, operational control, risk management, and leadership to ensure successful project outcomes.

Graduates will be able to:

Apply project management theories, tools and methodologies

Evaluate project risks, resources and governance frameworks

Lead complex projects aligned with strategic objectives

Communicate project outcomes effectively to stakeholders

Conduct applied project management research

Why This Programme Stands Out

Develop advanced project management and leadership capabilities

Equip students with tools for planning, risk, and resource management

Align projects with organisational strategy

Prepare graduates for senior project and programme management roles

Teaching Methodology

Our teaching experience combines engaging classroom lectures with consistent seminars and workshops, enriched by research opportunities and field trips. Students benefit from hands-on experiential learning, in-depth collaborative debates and discussions and real-world exposure through live consulting projects and dedicated consulting labs. The programme also supports startup incubation opportunities, all within a career-focused, industry-driven education framework.
